Sitemap URLs	500
Schema Objects Found	12

## PRIORITY FIXES

Categories scoring below 50% that need immediate attention:

- Priority Fix #1: Critical issue requiring immediate attention.
- Priority Fix #2: Critical issue requiring immediate attention.
- Priority Fix #3: Critical issue requiring immediate attention.
- Priority Fix #4: Critical issue requiring immediate attention.
- Priority Fix #5: Critical issue requiring immediate attention.

## QUICK WINS

High-impact improvements you can make quickly:

- \* Quick Win #1: Implement this quick improvement for immediate results.
- \* Quick Win #2: Implement this quick improvement for immediate results.
- \* Quick Win #3: Implement this quick improvement for immediate results.
- \* Quick Win #4: Implement this quick improvement for immediate results.
- \* Quick Win #5: Implement this quick improvement for immediate results.

# STRUCTURE & ARCHITECTURE (13/50)

How well your directory is organized - listings, categories, locations, and internal linking.

## [2/10] Structure Category 1

Finding #1 for Structure: Standard finding with details about the detected issue.  
Finding #2 for Structure: Standard finding with details about the detected issue.  
Finding #3 for Structure: Standard finding with details about the detected issue.  
Finding #4 for Structure: Standard finding with details about the detected issue.  
Finding #5 for Structure: Standard finding with details about the detected issue.

### **Recommendations:**

- > Recommendation #1: Standard recommendation text here.
- > Recommendation #2: Standard recommendation text here.
- > Recommendation #3: Standard recommendation text here.

## [2/10] Structure Category 2

Finding #1 for Structure: Standard finding with details about the detected issue.  
Finding #2 for Structure: Standard finding with details about the detected issue.  
Finding #3 for Structure: Standard finding with details about the detected issue.  
Finding #4 for Structure: Standard finding with details about the detected issue.  
Finding #5 for Structure: Standard finding with details about the detected issue.

### **Recommendations:**

- > Recommendation #1: Standard recommendation text here.
- > Recommendation #2: Standard recommendation text here.
- > Recommendation #3: Standard recommendation text here.

## [2/10] Structure Category 3

Finding #1 for Structure: Standard finding with details about the detected issue.  
Finding #2 for Structure: Standard finding with details about the detected issue.  
Finding #3 for Structure: Standard finding with details about the detected issue.  
Finding #4 for Structure: Standard finding with details about the detected issue.  
Finding #5 for Structure: Standard finding with details about the detected issue.

### **Recommendations:**

- > Recommendation #1: Standard recommendation text here.
- > Recommendation #2: Standard recommendation text here.
- > Recommendation #3: Standard recommendation text here.

## [2/10] Structure Category 4

Finding #1 for Structure: Standard finding with details about the detected issue.  
Finding #2 for Structure: Standard finding with details about the detected issue.  
Finding #3 for Structure: Standard finding with details about the detected issue.  
Finding #4 for Structure: Standard finding with details about the detected issue.  
Finding #5 for Structure: Standard finding with details about the detected issue.

**Recommendations:**

- > Recommendation #1: Standard recommendation text here.
- > Recommendation #2: Standard recommendation text here.
- > Recommendation #3: Standard recommendation text here.

**[2/10] Structure Category 5**

Finding #1 for Structure: Standard finding with details about the detected issue.

Finding #2 for Structure: Standard finding with details about the detected issue.

Finding #3 for Structure: Standard finding with details about the detected issue.

Finding #4 for Structure: Standard finding with details about the detected issue.

Finding #5 for Structure: Standard finding with details about the detected issue.

**Recommendations:**

- > Recommendation #1: Standard recommendation text here.
- > Recommendation #2: Standard recommendation text here.
- > Recommendation #3: Standard recommendation text here.

# ON-PAGE SEO (13/50)

Title tags, meta descriptions, headings, schema markup, and canonicals.

## [2/10] On-Page Category 1

Finding #1 for On-Page: Standard finding with details about the detected issue.  
Finding #2 for On-Page: Standard finding with details about the detected issue.  
Finding #3 for On-Page: Standard finding with details about the detected issue.  
Finding #4 for On-Page: Standard finding with details about the detected issue.  
Finding #5 for On-Page: Standard finding with details about the detected issue.

### **Recommendations:**

- > Recommendation #1: Standard recommendation text here.
- > Recommendation #2: Standard recommendation text here.
- > Recommendation #3: Standard recommendation text here.

## [2/10] On-Page Category 2

Finding #1 for On-Page: Standard finding with details about the detected issue.  
Finding #2 for On-Page: Standard finding with details about the detected issue.  
Finding #3 for On-Page: Standard finding with details about the detected issue.  
Finding #4 for On-Page: Standard finding with details about the detected issue.  
Finding #5 for On-Page: Standard finding with details about the detected issue.

### **Recommendations:**

- > Recommendation #1: Standard recommendation text here.
- > Recommendation #2: Standard recommendation text here.
- > Recommendation #3: Standard recommendation text here.

## [2/10] On-Page Category 3

Finding #1 for On-Page: Standard finding with details about the detected issue.  
Finding #2 for On-Page: Standard finding with details about the detected issue.  
Finding #3 for On-Page: Standard finding with details about the detected issue.  
Finding #4 for On-Page: Standard finding with details about the detected issue.  
Finding #5 for On-Page: Standard finding with details about the detected issue.

### **Recommendations:**

- > Recommendation #1: Standard recommendation text here.
- > Recommendation #2: Standard recommendation text here.
- > Recommendation #3: Standard recommendation text here.

## [2/10] On-Page Category 4

Finding #1 for On-Page: Standard finding with details about the detected issue.  
Finding #2 for On-Page: Standard finding with details about the detected issue.  
Finding #3 for On-Page: Standard finding with details about the detected issue.  
Finding #4 for On-Page: Standard finding with details about the detected issue.  
Finding #5 for On-Page: Standard finding with details about the detected issue.

**Recommendations:**

- > Recommendation #1: Standard recommendation text here.
- > Recommendation #2: Standard recommendation text here.
- > Recommendation #3: Standard recommendation text here.

**[2/10] On-Page Category 5**

Finding #1 for On-Page: Standard finding with details about the detected issue.

Finding #2 for On-Page: Standard finding with details about the detected issue.

Finding #3 for On-Page: Standard finding with details about the detected issue.

Finding #4 for On-Page: Standard finding with details about the detected issue.

Finding #5 for On-Page: Standard finding with details about the detected issue.

**Recommendations:**

- > Recommendation #1: Standard recommendation text here.
- > Recommendation #2: Standard recommendation text here.
- > Recommendation #3: Standard recommendation text here.

# CONTENT QUALITY (10/40)

Listing descriptions, user-generated content, editorial content, and freshness.

- > Recommendation #3: Standard recommendation text here.

## **[2/10] AI Visibility Category 10**

Finding #1 for AI Visibility: Standard finding with details about the detected issue.  
Finding #2 for AI Visibility: Standard finding with details about the detected issue.  
Finding #3 for AI Visibility: Standard finding with details about the detected issue.  
Finding #4 for AI Visibility: Standard finding with details about the detected issue.  
Finding #5 for AI Visibility: Standard finding with details about the detected issue.

**Recommendations:**

- > Recommendation #1: Standard recommendation text here.
- > Recommendation #2: Standard recommendation text here.
- > Recommendation #3: Standard recommendation text here.

# 30-DAY DIRECTORY IMPROVEMENT PLAN

## Week 1: Foundation & Structure

- ☐ Audit and fix URL structure for consistency
- ☐ Implement or fix BreadcrumbList schema
- ☐ Ensure all listings have canonical tags
- ☐ Block filter/sort URLs in robots.txt
- ☐ Submit updated sitemap with all listing pages

## Week 2: Schema & On-Page

- ☐ Implement LocalBusiness schema on all listing pages
- ☐ Add ItemList schema to category pages
- ☐ Ensure unique title tags (50-60 chars) per page
- ☐ Write unique meta descriptions (150-160 chars)
- ☐ Fix heading hierarchy (single H1, structured H2/H3)

## Week 3: Content Quality

- ☐ Expand thin listing descriptions to 300+ words
- ☐ Add/improve review and rating system
- ☐ Create 'Related Listings' sections
- ☐ Start blog with 'Best [Category] in [Location]' posts
- ☐ Add visible dates (last updated) to listings

## Week 4: Authority & Growth

- ☐ Add About, Contact, Privacy, and Terms pages
- ☐ Implement social sharing and links
- ☐ Create 'How We Rate' methodology page
- ☐ Begin outreach for backlinks and partnerships
- ☐ Set up Google Search Console monitoring

## DIRECTORY-SPECIFIC RECOMMENDATIONS

- **Listing Page Template:** Ensure every listing has: name, description (300+ words), address, phone, hours, images, categories, reviews, and external website link.
- **Category Hub Strategy:** Create pillar category pages with unique intro content, filtering options, and internal links to subcategories and top listings.

- **Location Pages:** If geo-relevant, create city/state landing pages targeting '[category] in [city]' searches.
- **User-Generated Content:** Encourage and display reviews - this creates unique content and builds trust with users and search engines.
- **Schema for Rich Results:** LocalBusiness, AggregateRating, ItemList, and FAQPage schemas can earn rich snippets in search results.
- **Programmatic SEO:** Use templates + unique data points to generate valuable pages at scale without thin content issues.
